What's new here: - Bug fix - Performance improvements - Privacy policy update - One review updated for the requirements of the new platform, as I said the game is fun, I said I had to look closely at a pop-up video called advertising and it came with them, but Andy's way I like flash little games They still have 7 games, but they are still really fun to pass 7 games! Can't wait! Yay! I hope they add a version of the Night Marathon app to it as I have it as an individual app, but unfortunately it was removed from the AppStore so it doesn't work past iOS 10.3, so add a night marathon to this app!!!! It's great with games and things but you can add more games, I know there are some games but when you're done with them you get bored so I'm just saying I'm going to add more games so it's more fun and addicting and it's great for me and everyone else not to get bored.
